Skills:

- | | |
|--|--|
| <ul style="list-style-type: none"> • All standard office software, Microsoft and Apple. • Delivering courses and presentations. • Management style; empowerment with attention for individuals. • Recognising and respecting cultural differences. | <ul style="list-style-type: none"> • Proficient in English. • Able to deliver with minimal guidance. • Soft skills and a team player. • Understanding technology without being a technician. |
|--|--|

Private:

Far from being risk-averse I love trail running and riding my motorcycle for commuting and fun. My perseverance is evident; I tried to play drums my whole life without succeeding. I'm continuing that 'career' now with a bass guitar. I love music and especially progressive rock.

Characteristics:

Open minded, social and getting along well with various cultures. Ambitious, persevering, enthusiastic, flexible, loyal, impatient, precise. I love to observe and listen and will contribute to the conversation but seldom as 'primary reaction'. I love goal setting and proclaiming declarations to make things happen, e.g.: "I'm going to run a marathon." I ran the Australian Outback Marathon in 2016. My motto is: 'work hard, play hard, rest hard, be outspoken and open'.

Company:

Shipping-, Biking-, Mixing- and Retiring Lane are brands of Dunethorp. Shipping Lane was founded in 2002 as my brand providing HSSEQ services to the offshore industry (survey, oil, gas, wind, wave, tidal and decommissioning). Mixing Lane supports local bands with equipment and services for their gig that they otherwise would not be able to afford. This is a charity funded by Shipping Lane. Companies can support this charity by hiring same equipment and services for their events at competitive prices.
