

**Contact**

Wieringsestraat 256  
 2583 VG The Hague  
 The Netherlands

E-mail: arie@shippinglane.nl  
 Mob: +31 653 81 84 98  
 Nationality: Dutch

**Characteristics**

I'm open-minded, social and get along well with various cultures. I'm also ambitious, persevering, enthusiastic, flexible, loyal, impatient and precise. I love to observe and listen to arguments and I will actively contribute to discussions, but rarely from a primary response. As a goal setter I like to proclaim declarations to make things happen, e.g.: "I'm going to run a marathon." I ran the Australian Outback Marathon.

You're not just hiring a CV but also personality, sense of duty, responsibility, values and someone who's able to support your team with logical and practical solutions quickly and well. I'm experienced in on- and offshore projects both office and at site. Offshore projects often include major onshore activities. Companies also like to work with me because of the interesting combination of ISM, ISPS, MLC knowledge and behavioural safety, coaching and training competence.

Visit <https://shippinglane.nl/gallery-projects/> for some project pictures.

**Skills**

- Both Microsoft and Apple software.
- STAR-IPS, Quentic, Signavio.
- ISO 9001, ISO 14001, ISO 45001, Safety Culture Ladder, VCA, ISM, ISPS, MLC, SOLAS, MARPOL.
- Very proficient in English, basic knowledge of German.
- Understanding technology very well without being a technician.
- Delivering courses and presentations.
- Leadership style; Adaptive, generating followership.
- Recognising and respecting cultural differences.
- Able to deliver with minimal guidance.
- Soft skills and a team player.

**Private**

Far from being risk-averse I love trail running and riding my motorcycle for commuting and fun. My perseverance is evident; I tried to play drums my whole life without succeeding. I'm continuing that 'career' now with a bass guitar. I love music and especially progressive rock. I don't limit environmental awareness to my professional work. Our house is disconnected from the gas grid and has been using a heat pump to obtain energy from sea water for over 13 years. My motto is: 'work hard, play hard, rest hard, be outspoken and open'.

**Company**

Biking Lane, Competence Lane, Mixing Lane and Shipping Lane are brands under Dunethorp that I own. Shipping Lane was founded in 2002 providing HSESEQ services to the offshore survey, oil, gas, wind, wave, tidal, renewable and decommissioning industry. Competence Lane delivers personal and team coaching services. Mixing Lane supports local bands with equipment and services for their gig that they otherwise would not be able to afford. This is a charity funded by Shipping Lane. Clients can support this charity by hiring Mixing Lane for their events. Biking Lane sells niche products for motorcycles to the Dutch market.

**Memberships and registrations**

CCSE	Register of Certified Chemical Safety Experts	NVVK	Dutch Society for Safety Science	(8060)
